

VR125XS

DIESEL GENSET SPECIFICATION

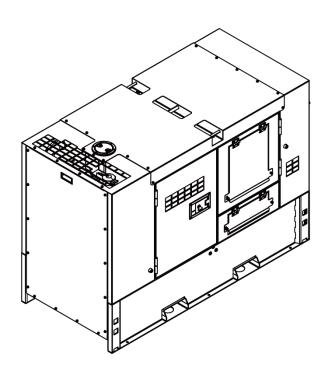

125kVA (PRP) / 138kVA (ESP)

ID: 1000034904

Diesel Genset Specification VR125XS

General technical data

Model	VR125XS		Rated voltage V	Current A
Structure	PT	3	380	189.9
Prime power (PRP): kVA / kW	125 / 100	4	400	180.4
Standby power (ESP): kVA/kW	138 / 100	4	415	173.9
Frequency: Hz	50			
Rotate speed: RPM	1500			
Phase: P	3			
Power factor: cosφ	0.8	I	Load	Fuel consumption L/h
Protection class	IP54	2	25%	8
Noise level: dB@7m	70	Ę	50%	15
Tank capacity: L	250	7	75%	21
Dimensions: mm	2700x1150x1930.6	•	100%	28
Dry weight: kg	1999		110%	31

Main Features

Advantage Design Standards		Environmental Operating Conditions		
Low fuel consumption	Conformite Europeenne (CE)	Installation place: outdoor / indoor (well ventilated).		
 Optimized system 	• ISO8528-5:2005	• Ambient temperature: -25°C to 45°C (the		
High reliability		coolant heater is needed when the temperature is below 5°C)		
High availability		Humidity: Less than 80%		
		 Altitude: Below one thousand (1000) meters. 		

Factory Inspection Service Support		Performance Guarantee		
Protection devices working test	Global product service support	 Product design, manufacturing and performance have been verified by standards 		
Starting ability in normal temperature		Generator set has passed transient		
 50% rated power loa 	d moment capability	response test according to ISO8528-5		
• Load test :0, 25%, 50%, 75%, 100%, 110%		 Both engine and alternator have passed prototype factory testing. 		

Power System

Eng	ine
_	

Manufacturer / brand	PowerLink	Intake system	Turbocharged
Model	VR4-4.8TAG3	Intake resistance: kPa	≦5.0
Cylinders	4L	Exhaust back pressure: kPa	≦10.1
Bore: mm	110	Oil capacity: L	16
Stroke: mm	125	Coolant capacity: L	18
Displacement: L	4.75	Battery voltage: V	24
Compression ratio	17.0	Dimensions: mm	1160×710×965
Rotate speed: RPM	1500	Dry weight: kg	500
Prime power: kWm	110		
Standby power: kWm	120		
Rotate speed governor	EFC		
Type of fuel Injection	Direct		

Alternator

Manufacturer / brand	PowerLink	Insulation class	Н
Model	PL3C	Temperature rising class	Н
Exciter	Brushless	Protection class	IP23
Windings	100% copper	Voltage regulation	±1.0%
Winding pitch	2/3	Telephone harmonic factor THF	<2%
Number of poles	4	Telephone interference factor TIF	<50
Terminals	12		

Control System

Brand POWERLINK Model PLC-920

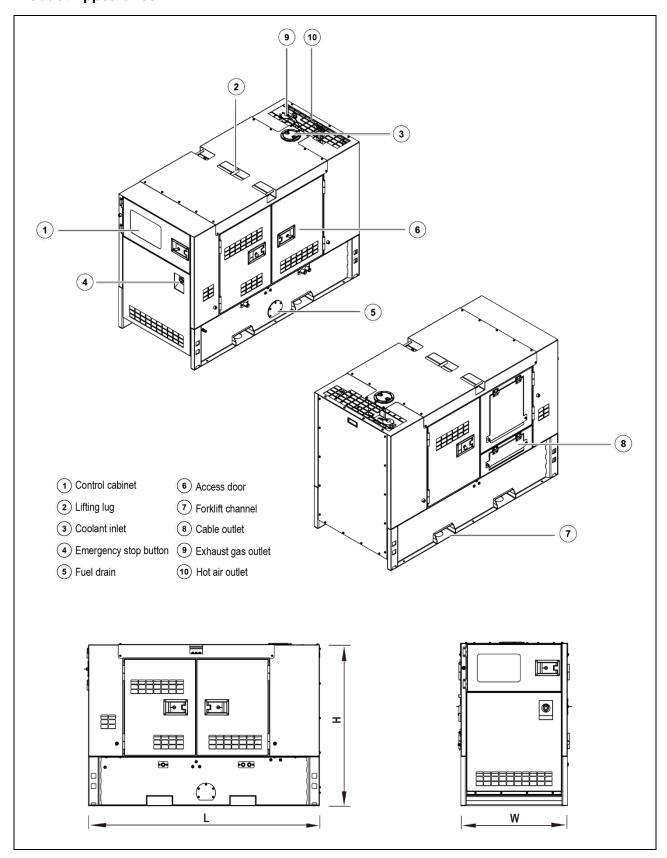

General Functions

	• .	
 Automatic start / stop control 	Oil pressure	Over load
 Manual/remote start control 	Water temperature	Over current
- Real time monitoring and display of multiple parameters	Rotate speed	Over voltage
- RS232, RS485 interface and Ethernet can be used	Start	Under voltage
simultaneously	Running time	Over frequency
 CAN and Modbus communication 	Battery voltage	Under frequency
 Provide complete control solutions 		

Monitoring and protection

Product Appearance

Product Configuration

Standard configuration

-				
Engine	Generator	Control switchgear	Canopy (sound-proof)	Base Frame
Electrical start motor Battery system Speed control system Turbocharger Lockable isolator switch Battery charger	Alternator H class insulation H class temperature rising IP23 protection AVR voltage regulator	PLC control system Main circuit breaker Breaker cabinet Communication connector ATS connector Mains floating charger	SECC Electrogalvanized sheet Corrosion-resistant coating Access door Stainless steel hinge Sound absorbing cotton	Steel base frame Engine bracket Alternator bracket Radiator bracket Vibration isolators
Fuel system	Lubrication system	Cooling system	Intake / exhaust system	Service documents
Base frame fuel tank Fuel level sensor Flexible connection pipe Fuel filter	Oil pressure sensor Oil temperature sensor Oil filter Manual oil drain pump Oil drain ball valve	50°C radiator Water level sensor Jacket water pipe Intercooling pipe	Air filter Exhaust muffler Exhaust bellow Exhaust pipe and flange High temperature protective sleeve	Installation and operation manual Test report Circuit diagram Warranty manual Engine operation and maintenance manual
				Standard package

Optional configuration

Engine	Alternator	Control switchgear	Fuel system	Lubrication system
Jacket water preheater	Anti-condensation	4P Circuit breaker	Fuel three-way valve	Electric oil drain pump
	Treatments against humidity and corrosion	ATS cabinet	Daily fuel tank	
		Paralleling control system		
		Grid-connection system		

Power Class Definition

- Prime Power (PRP): the unit runs continuously with variable load, the number of operating hours is not limited, and 1h overload 10% operation is allowed per 12h, and the average load factor is less than 70% per 24h.
- Standby Power (ESP): operating time does not exceed 500h per year, continuous operating time does not exceed 300h, the average load factor is less than 80% per 24h. Overload operation is not allowed.

Product Statement

- The data of specifications is based on the following standard environmental test conditions.
 - Ambient temperature 25°C
 - Altitude 100m
 - Relative humidity 30%
- Dimensions, weight and other parame0ters are for reference only, which shall be subject to the final design drawing.

Data is subject to change without prior notice as new products are always developed.

Please contact PowerLink or local agent with any doubts or for more information.
