

#### **Main Configuration**

- ATS switch ( with intelligent controller )
- Intelligent automatic controller ( PLC600+ )
- ATS communication connector
- Control signal terminals
- Grounding copper bar
- Electrical mounting plate(aluminum zinc coated plate)
- Standard electric cabinet

#### **ATS Main Performance**

- Padlock and on-off position indication, reliably realize the isolation of power supply and load.
- Four operating functions:
  - ♦ Emergency manual operation
    - ♦ Electric remote control operation
    - Emergency disconnect operation under automatic control state
    - ♦ Automatic control operation
- Three working states (I-O-II):
  - $\diamond \qquad \text{Common closing and standby opening;} \\$
  - ♦ Common opening, standby closing;
  - Common and standby power sources are both disconnected.

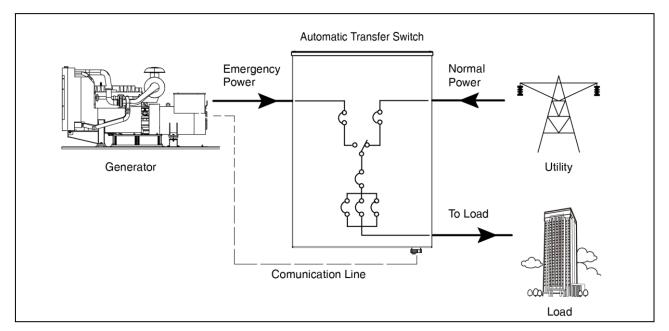

### **Working Conditions**

- Ambient temperature : -25°C ~ +70°C
- Altitude : Below 2000m
- Humidity : Less than 80%

#### Main Features

- 1. Intelligent controller uses IC as the control core.
- 2. Adopte built-in sampling line.
- 3. Strong anti-interference ability.
- 4. Full functions, with overvoltage, undervoltage and open phase switching.
- 5. Double breakpoint horizontal pull mechanism is adopted, which is safe and reliable in switching on and off.
- 6. The actuating load disconnecting switch is equipped with mechanical interlock.
- 7. Normal and standby power sources work reliabley with non inerference.
- 8. Adopt the zero-position technology, which can be set to zero compulsivly in case of emergency.
- 9. Protection class: IP23, indoor application.

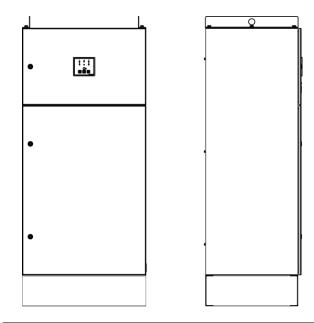

# **Main Technical Data**

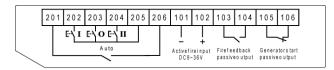

Rated operating current le (A)	1600A		
Rated working voltage Ue	AC400V		
Rated control voltage Uc	AC220V, DC24V, 48V		
Rated working frequency Fr	50Hz		
Rated insulation voltage Ui	690V		
Impulse withstand voltage Uimp	8kV		
Use category	AC-33B		
Short circuit making capacity Icm	67.5kA		
Short time withstand current Icw	32kA/60ms		
Switching time	1.8 s		

# **Overall Dimension**

Model	Length	Width	Height	Weight				
PC1600A	800	620	1875	236 kg				
Dimension unit: mm								

# **ATS Communication Diagram**

N 1 Actives ignal indication(AC230V) N 2								
	Commo zeroline (3P)		<sup>I</sup> ⊗ <sup>1</sup>	°⊗¹	I 😽	Standby ceroline (3P)		
	301	302	303	304	305	306		

### **Design Standard**

- IEC60947-1/GB/T 14048-2000 Low-voltage switchgear and controlgear— General rules
- IEC60947-3/GB 14048.3 Low voltage switchgear and controlgear switches, disconnectors, switch-disconnectors and fuse-combination units
- IEC60947-6-1/GB 14048.11 Automatic transfer switchgear equipment
